### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and /or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issued fee.

The following changes have been made to the subject application:

In claim 1, line 8, replace "the state swing latch" with -- the state saving latch--.

In claim 11, line 13, replace "the state swing latch" with -- the state saving latch--.

In claim 23, line 13, replace "the data" with -- a data--.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### *Reason for Allowance*

The following is an examiner's statement of reasons for allowance: the applicant's amendment filed on 12-01-03 overcomes the technical deficiencies and the prior art of record.

The prior art reference of records fails to teach or fairly suggest a flip-flop comprising a state saving latch coupled to the second power supply and is activated upon detection of standby power saving mode wherein the contents of the first latch are loaded into the state saving latch and wherein the first power supply is reduced to 0 volts and the second power supply is reduced to minimum voltage to sustain the state as called for in claims 1, 11, 20 and 24; a flip-flop comprising a state saving latch coupled to the second power supply and a restore mechanism which multiplexes the data and the output of the slave latch to enable the recovery of the state of contents of the master latch as called for in claim 23. Therefore, claims 1-16, 18-21, 23, 24 and 26-28 are presently allowed.
